

Timeless design and award-winning* sound

At first sight, its timeless design is subtle yet refined. And from the moment you turn it on, it captivates your attention. It's the sound of an award-winning speaker solution, paired with the latest generation OLED screen, that confirms that this is indeed a Bang & Olufsen television experience. One you simply must hear, see and feel to believe.

YOU MIGHT WANNA KNOW

The aluminium frame

The characteristic aluminium frame around Beovision Contour is developed in conjunction with our own Aluminium Factory in Denmark. The shape is designed to appear rounded and gentle overall but exact and precise where it counts. This is done by extruding the profiles in a beautiful profile that is then machined to the finest of tolerances and joined perfectly in the corners.

COPY BLOCKS

5 words:

A television experience of design and sound.

10 words:

A timeless design and award-winning sound in one television experience.

25 words:

A timeless design and award-winning sound in one television experience. The minimalistic aluminium frame and an integrated 3-channel speaker solution, will captivate your attention.

50 words:

A timeless design and award-winning sound in one television experience. The minimalistic aluminium frame and an integrated, 3-channel speaker solution, will captivate your attention. Add Dolby Atmos processing and 11 speaker drivers, along with the absolute black and realistic colours of the latest generation OLED screen, and you'll be mesmerised.

100 words:

A timeless design and award-winning sound in one television experience. Our minimalistic aluminium frame is available in a wide range of colours, together with curated fabric and wooden speaker fronts. The integrated 3-channel speaker solution with Dolby Atmos processing and 11 speaker drivers and amplifiers will mesmerise you – no matter if you're listening to pure speech, or deep bass. The experience is completed with the absolute black and realistic colours of the latest generation OLED screen from LG. Add the minimalistic floor stand, tabletop stand, or wall bracket, along with easy-to-use and programmable control technology and you have the Beovision Contour.
